

# \$25,000 FAST Starter Kit

FAST is VisionFund's bold and innovative strategy to reach the most vulnerable clients: mostly women, living in rural communities. Through our partnership with World Vision, savings groups are lent capital to grow their members' businesses. Members loans are recycled back into the group creating ongoing capital used to improve their livelihoods bringing dignity and well-being, and breaking the cycle of intergenerational poverty.

A **FAST Starter Kit** donation allows us to hire a female field officer from the community, **equip her with transportation, training and the loan capital** needed to lend to **15 savings groups**.

## 30 GROUPS IMPACTED

The FAST Starter Kit donation is complimented by other funding sources, providing the additional lending capital to reach 30 savings groups.

Creating secure futures for children, families, and communities, and breaking the cycle of intergenerational poverty.
